CAPITAL OVER 350,000 DOLLARS, AND CONSTANTLY INCREASING.
The Charter of this Company offers more favorable advantages to the farmer and others, than any of advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the insured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. S. SANDS' EXCELSIOR MANIPULATED

GUANO No. 1.

HAVE engaged in the Manipulation of GU ANOS, and am now ready to supply the Farmers and Planters of the United States with an article which I consider superior to anything of the kind which has yet been produced, having an unusual amount I believe, of the valuable ingredients in this article. During my editorship of the "American Farmer," with which until within a few | Pearl and Morocco Porte-Mon nonths, I have been connected for 25 years, I have nost emphatically urged upon the Farmers and Planters that the mixture of the Ammoniacal Gu-ano (Peruvian) with the Phosphatic (Mexican, Columbian, &c..) was the best and cheapest application to most crops they could apply. For more general views upon this subject, I refer to the pages of the American Farmer; and also, to my circular just issued (and which will be forwarded to any one desiring it) in which this view is ably sustained by Dr. Bickell, Analytical Chemist, of this

THE EXCELSIOR MANIPULATED GUANO WILL BE PUT UP IN BAGS AND MARKED S. Sands' Excelsior Manipulated Guano, AND WILL CONTAIN

94 to 10 per cent. Ammonia and 45 to 50 per cent. Phosphates.
It is intended that it shall reach the highest of these standards, but some allowance is desired to be made, to meet any possible short-coming which by accident may be made. The Excelsior No. 1

I believe equal to the best Peruvian Guano on any of their location in New York, to into erop to which that article is applied, and will surpass it as improvement to land. The Agricultural public have been much imposed upon by all sorts of professed fertilizers, but I have no besitation in saying, that I believe this compound will be found the "Ne Plus Ultra" of anything of the kind which has yet been produced; and with this confidence

in its value, I have agreed to introduce it to the public.
